How you can store your data:

- Lock data in a personal storage
- Give your data to an online storage

Result : you pay even if your data isn't valorized

**The answer is
BLOCKCHAIN**

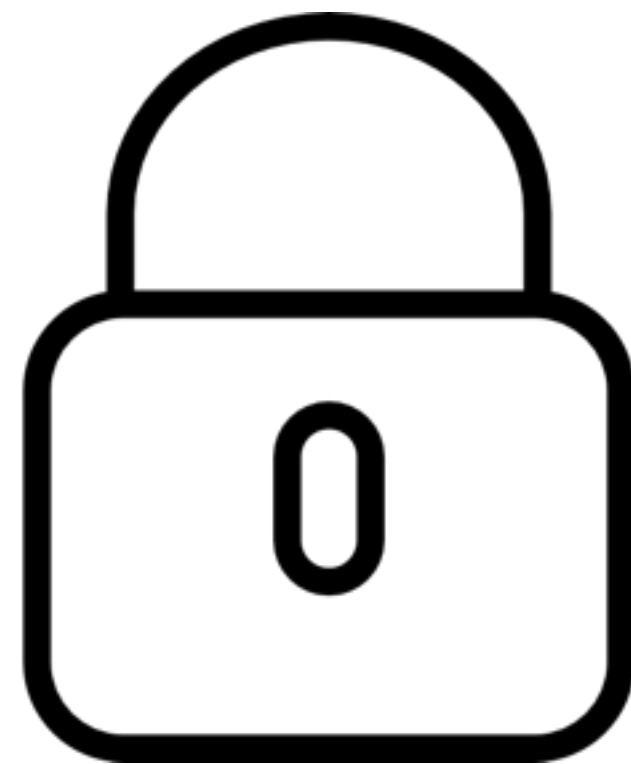

DISTRIBUTED DATA MARKETS

WHAT BLOCKCHAIN CAN'T DO

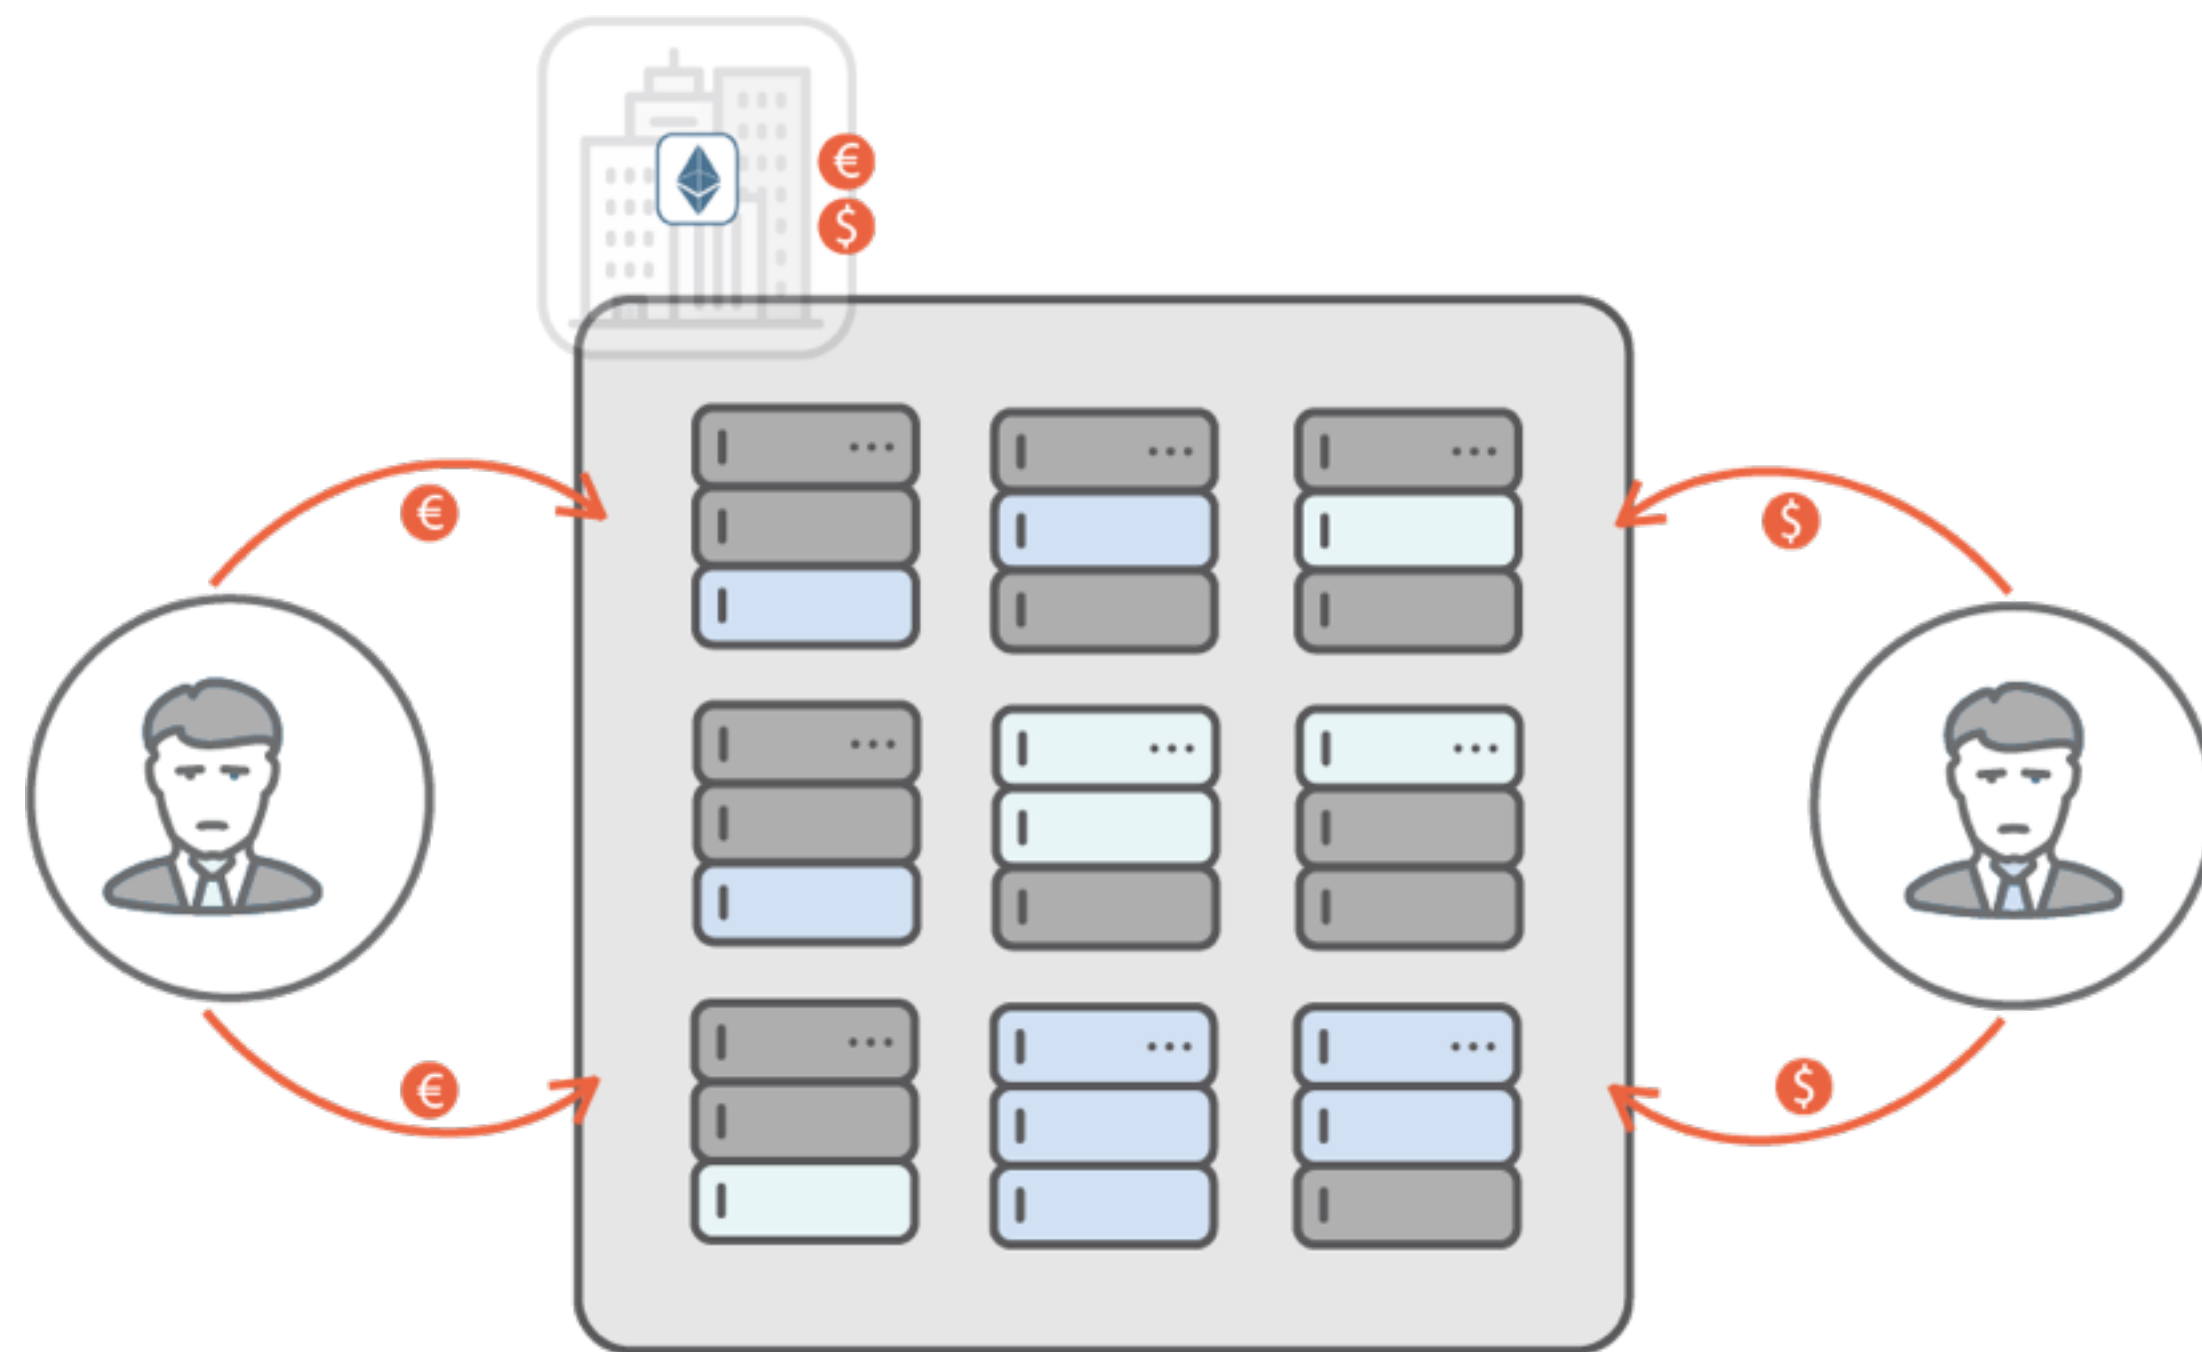

**NO DEDICATED
STORAGE**

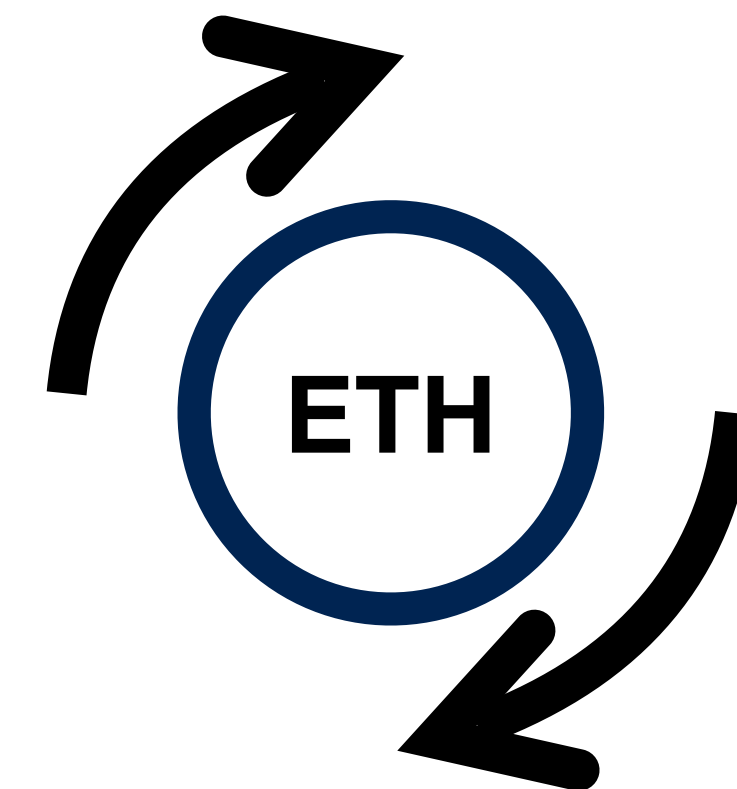

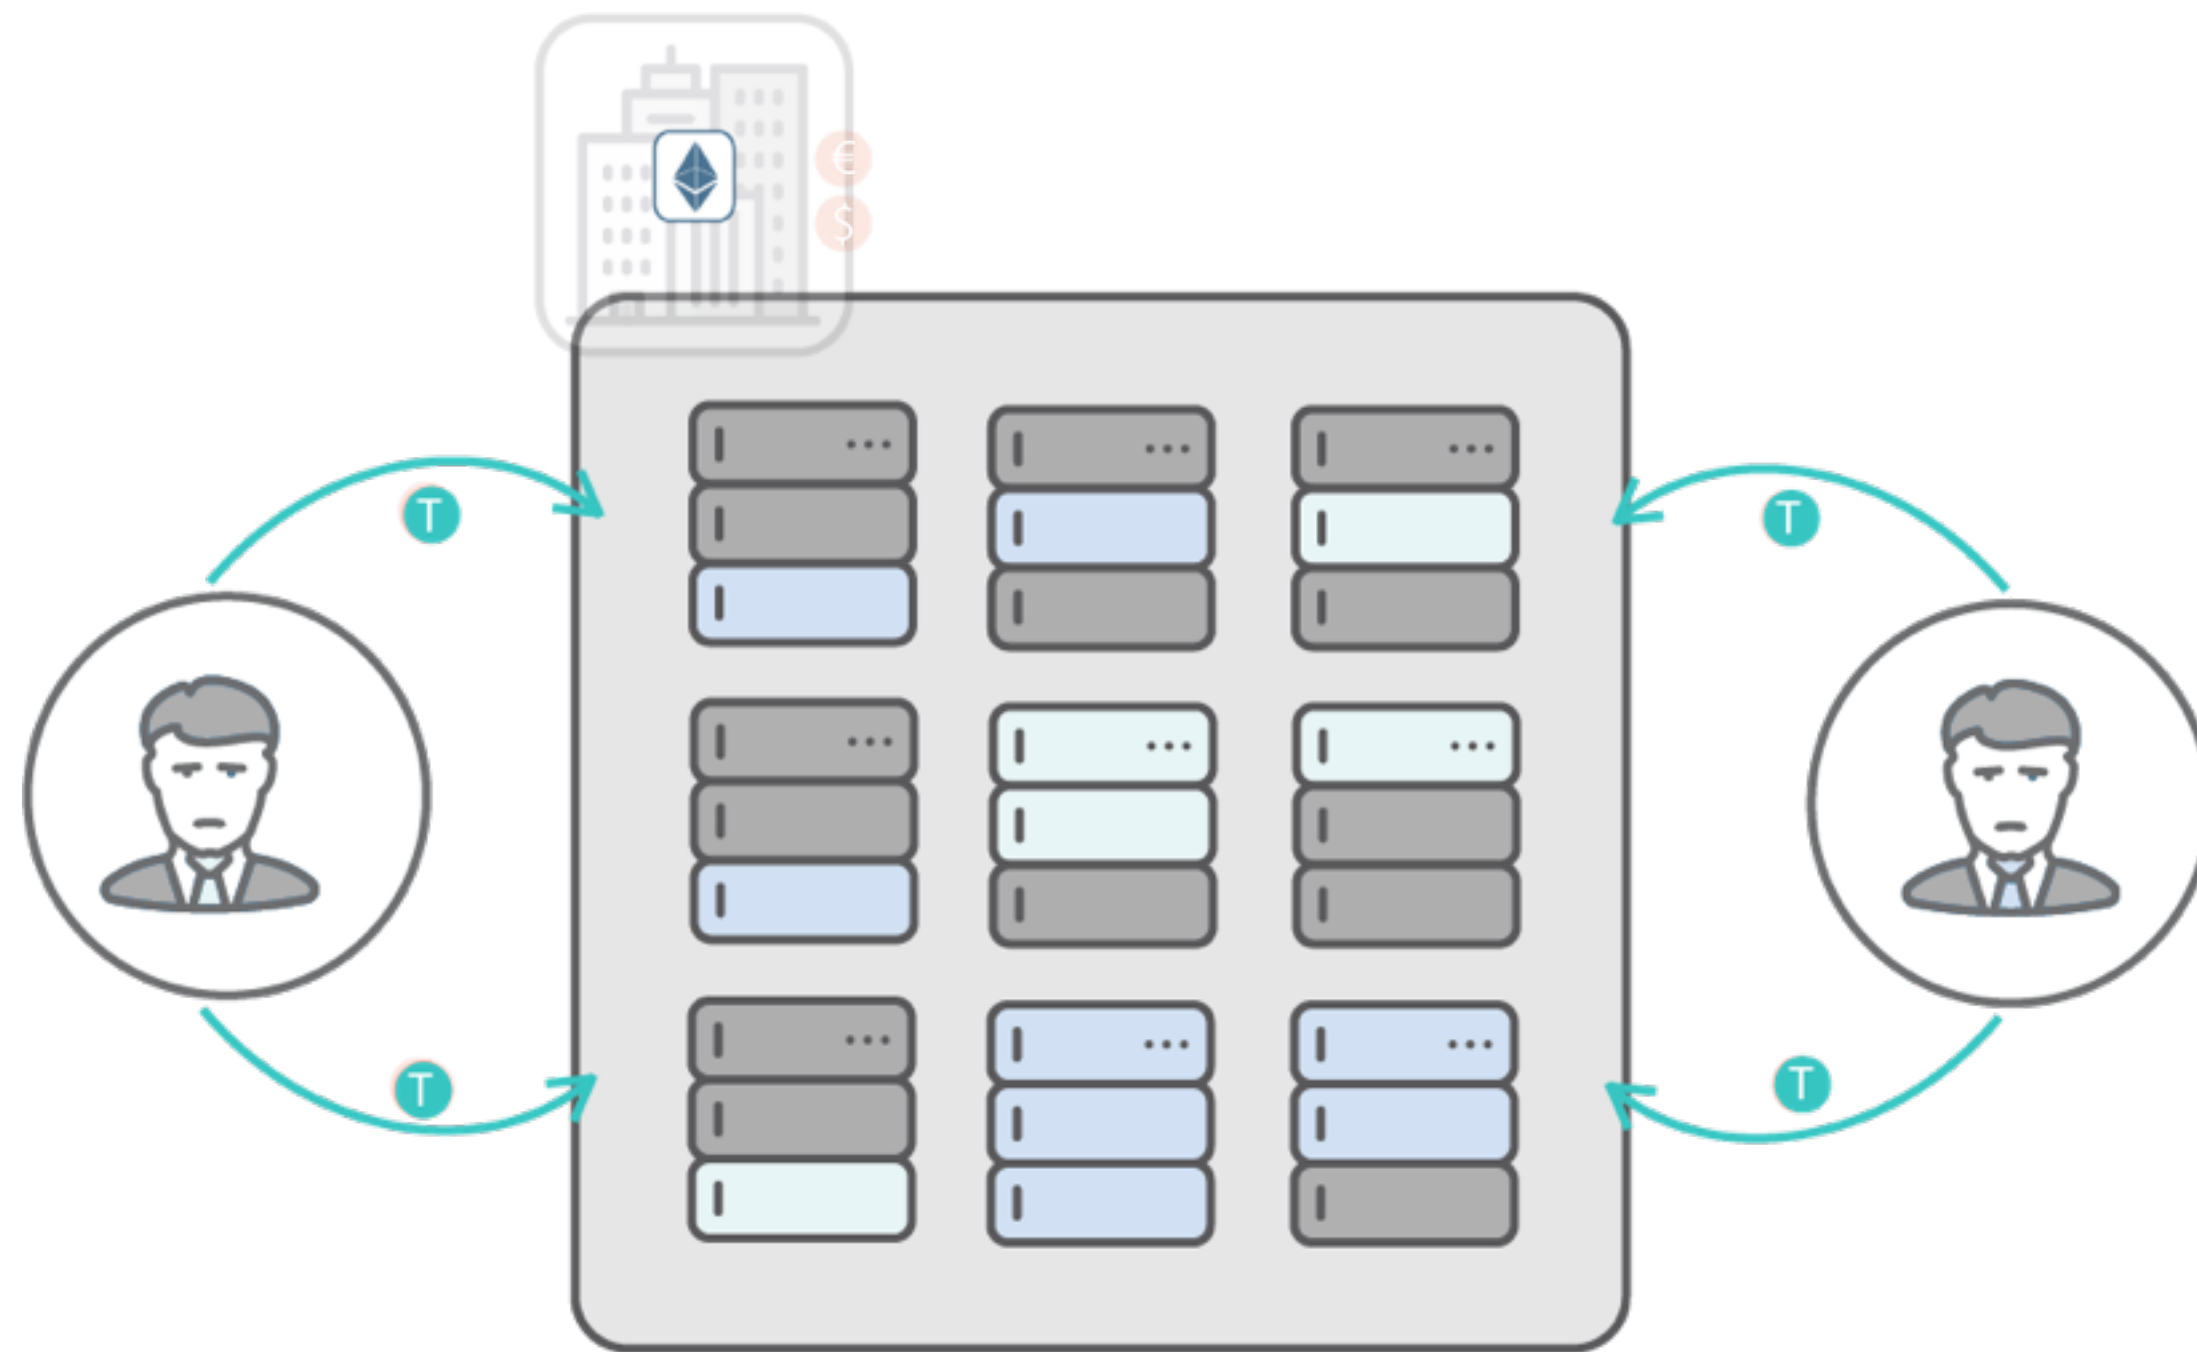

**NO DATA
PRIVACY**

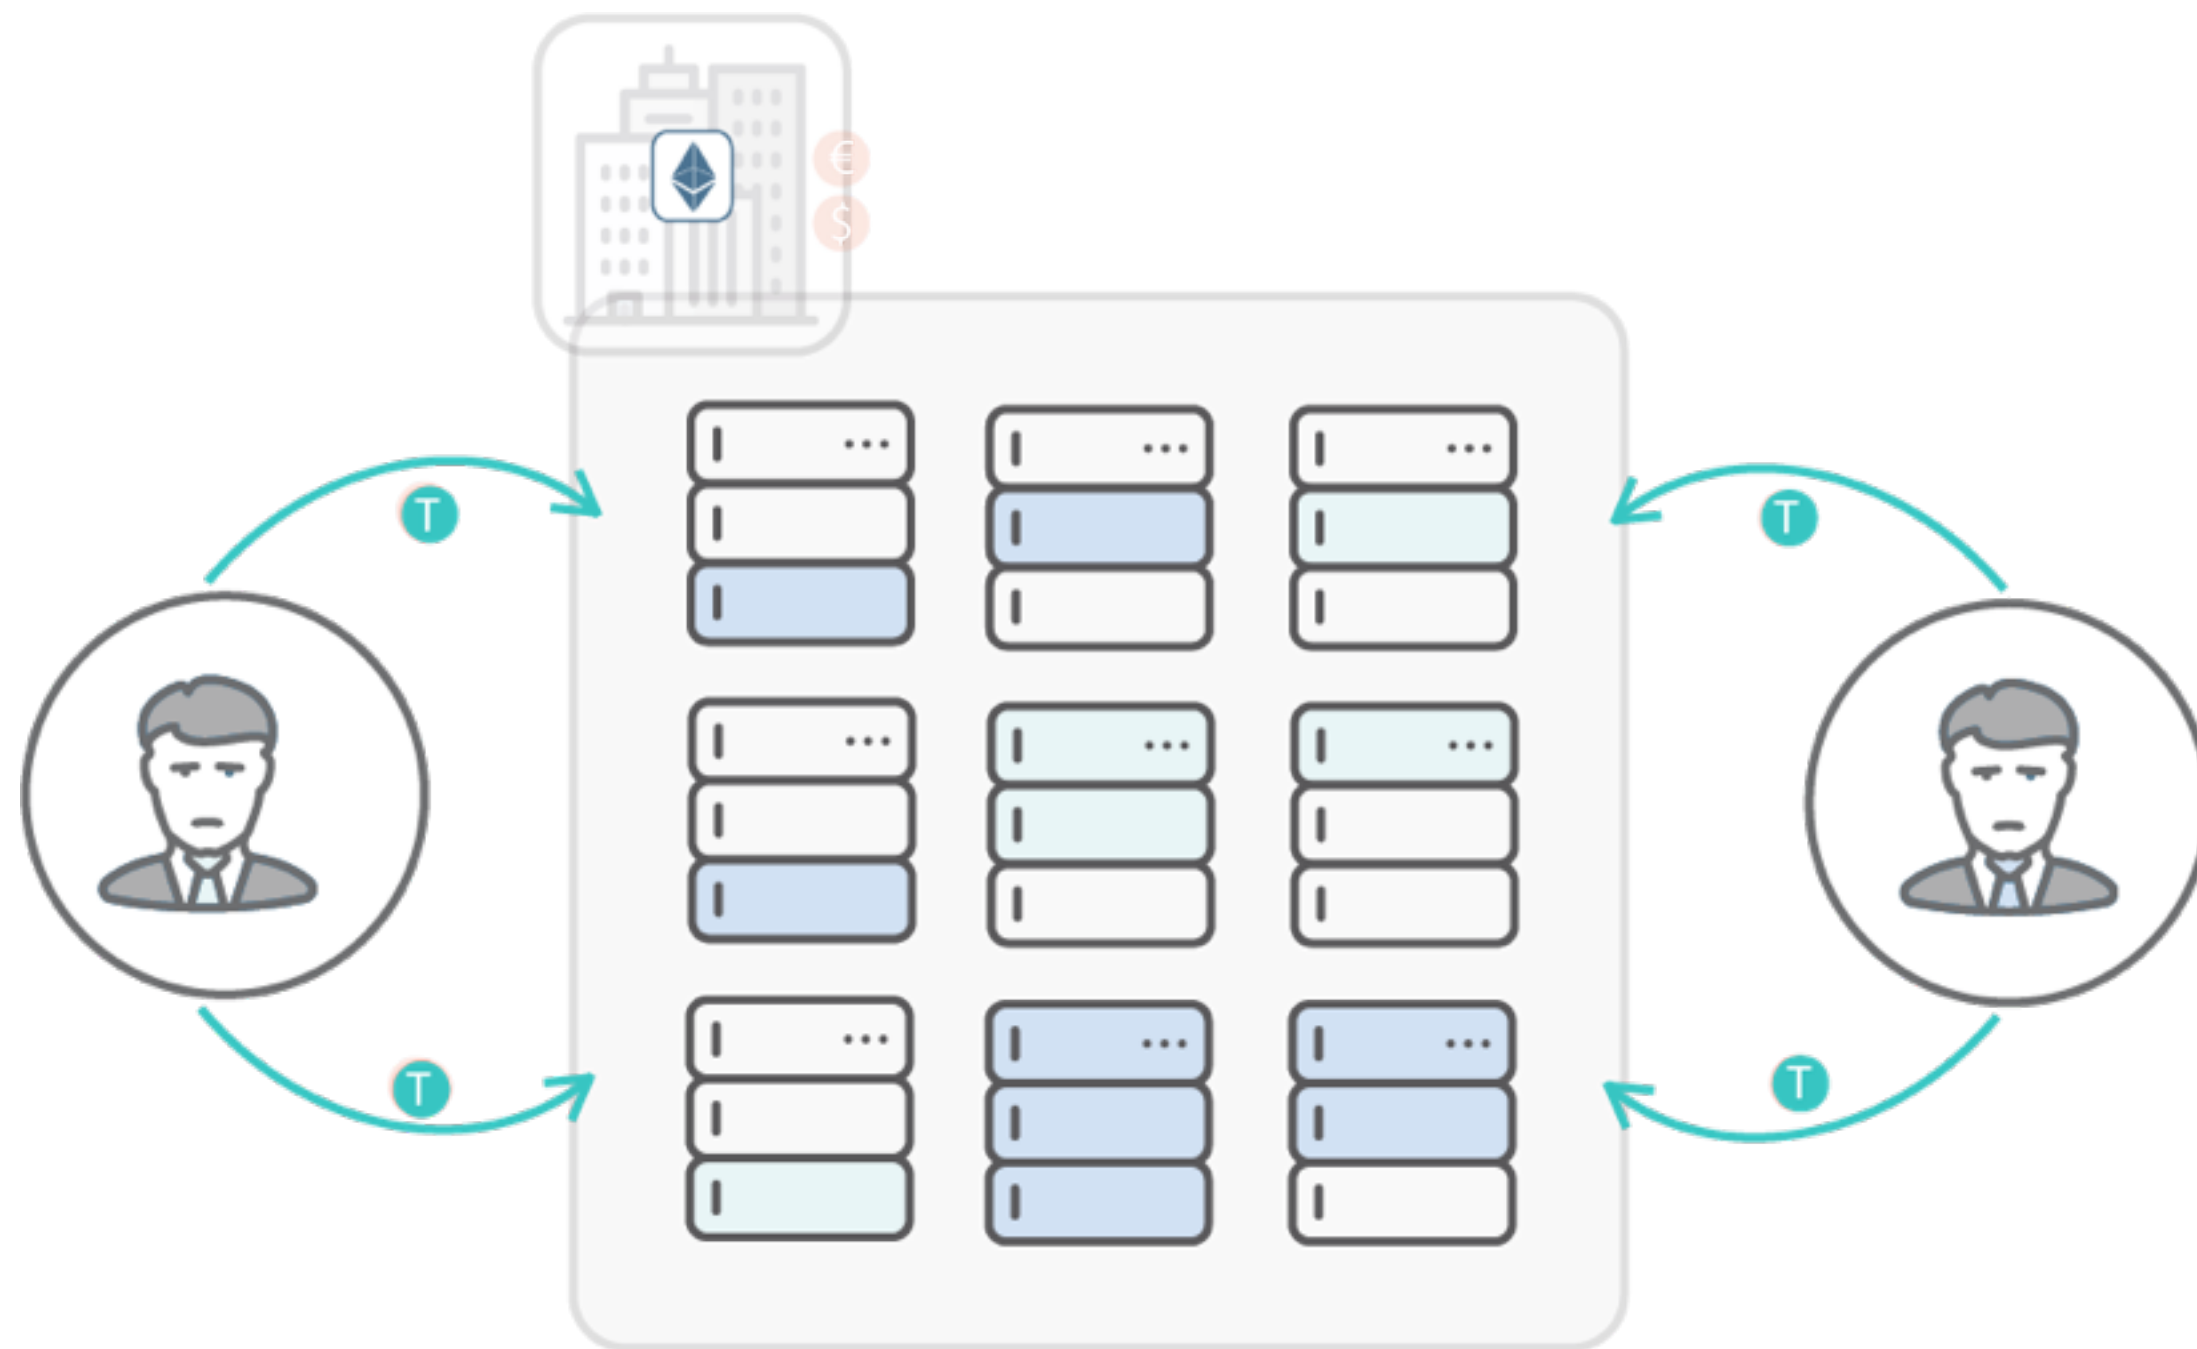

**NOT DESIGNED FOR
DATA SEARCH**

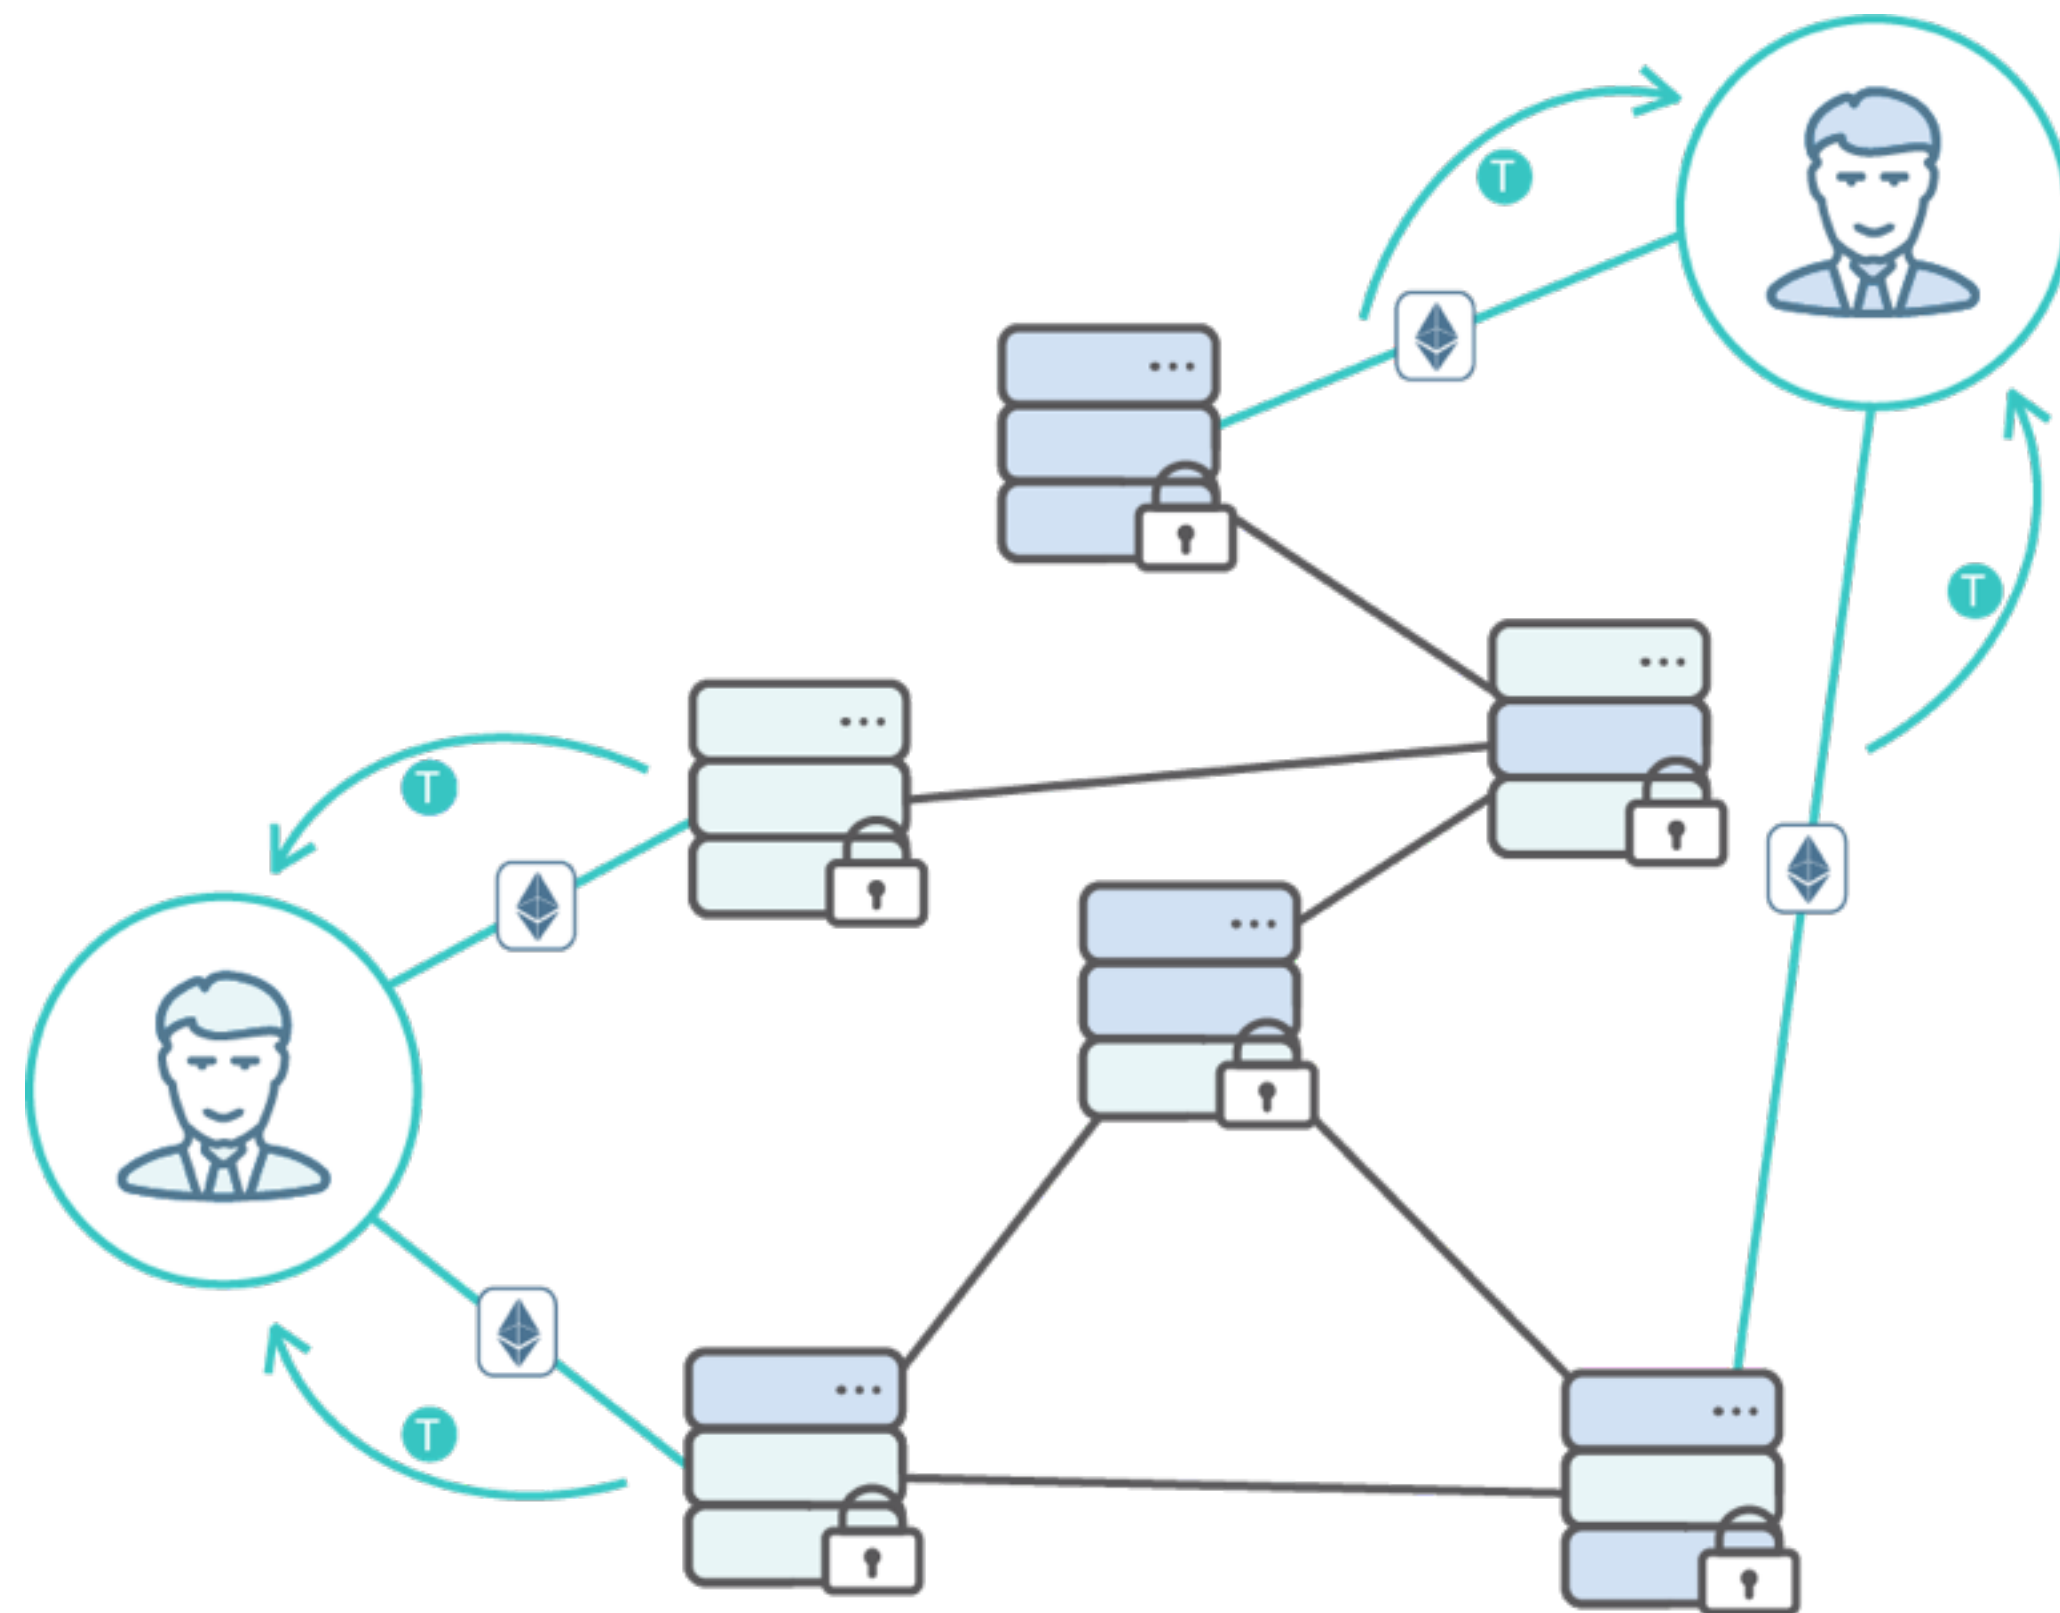

TRUSTLESS ACTIONS :
SMART CONTRACTS

DECENTRALIZED PAYMENTS :
ETHER, TOKEN

**DECENTRALIZED DATA
STORAGE**

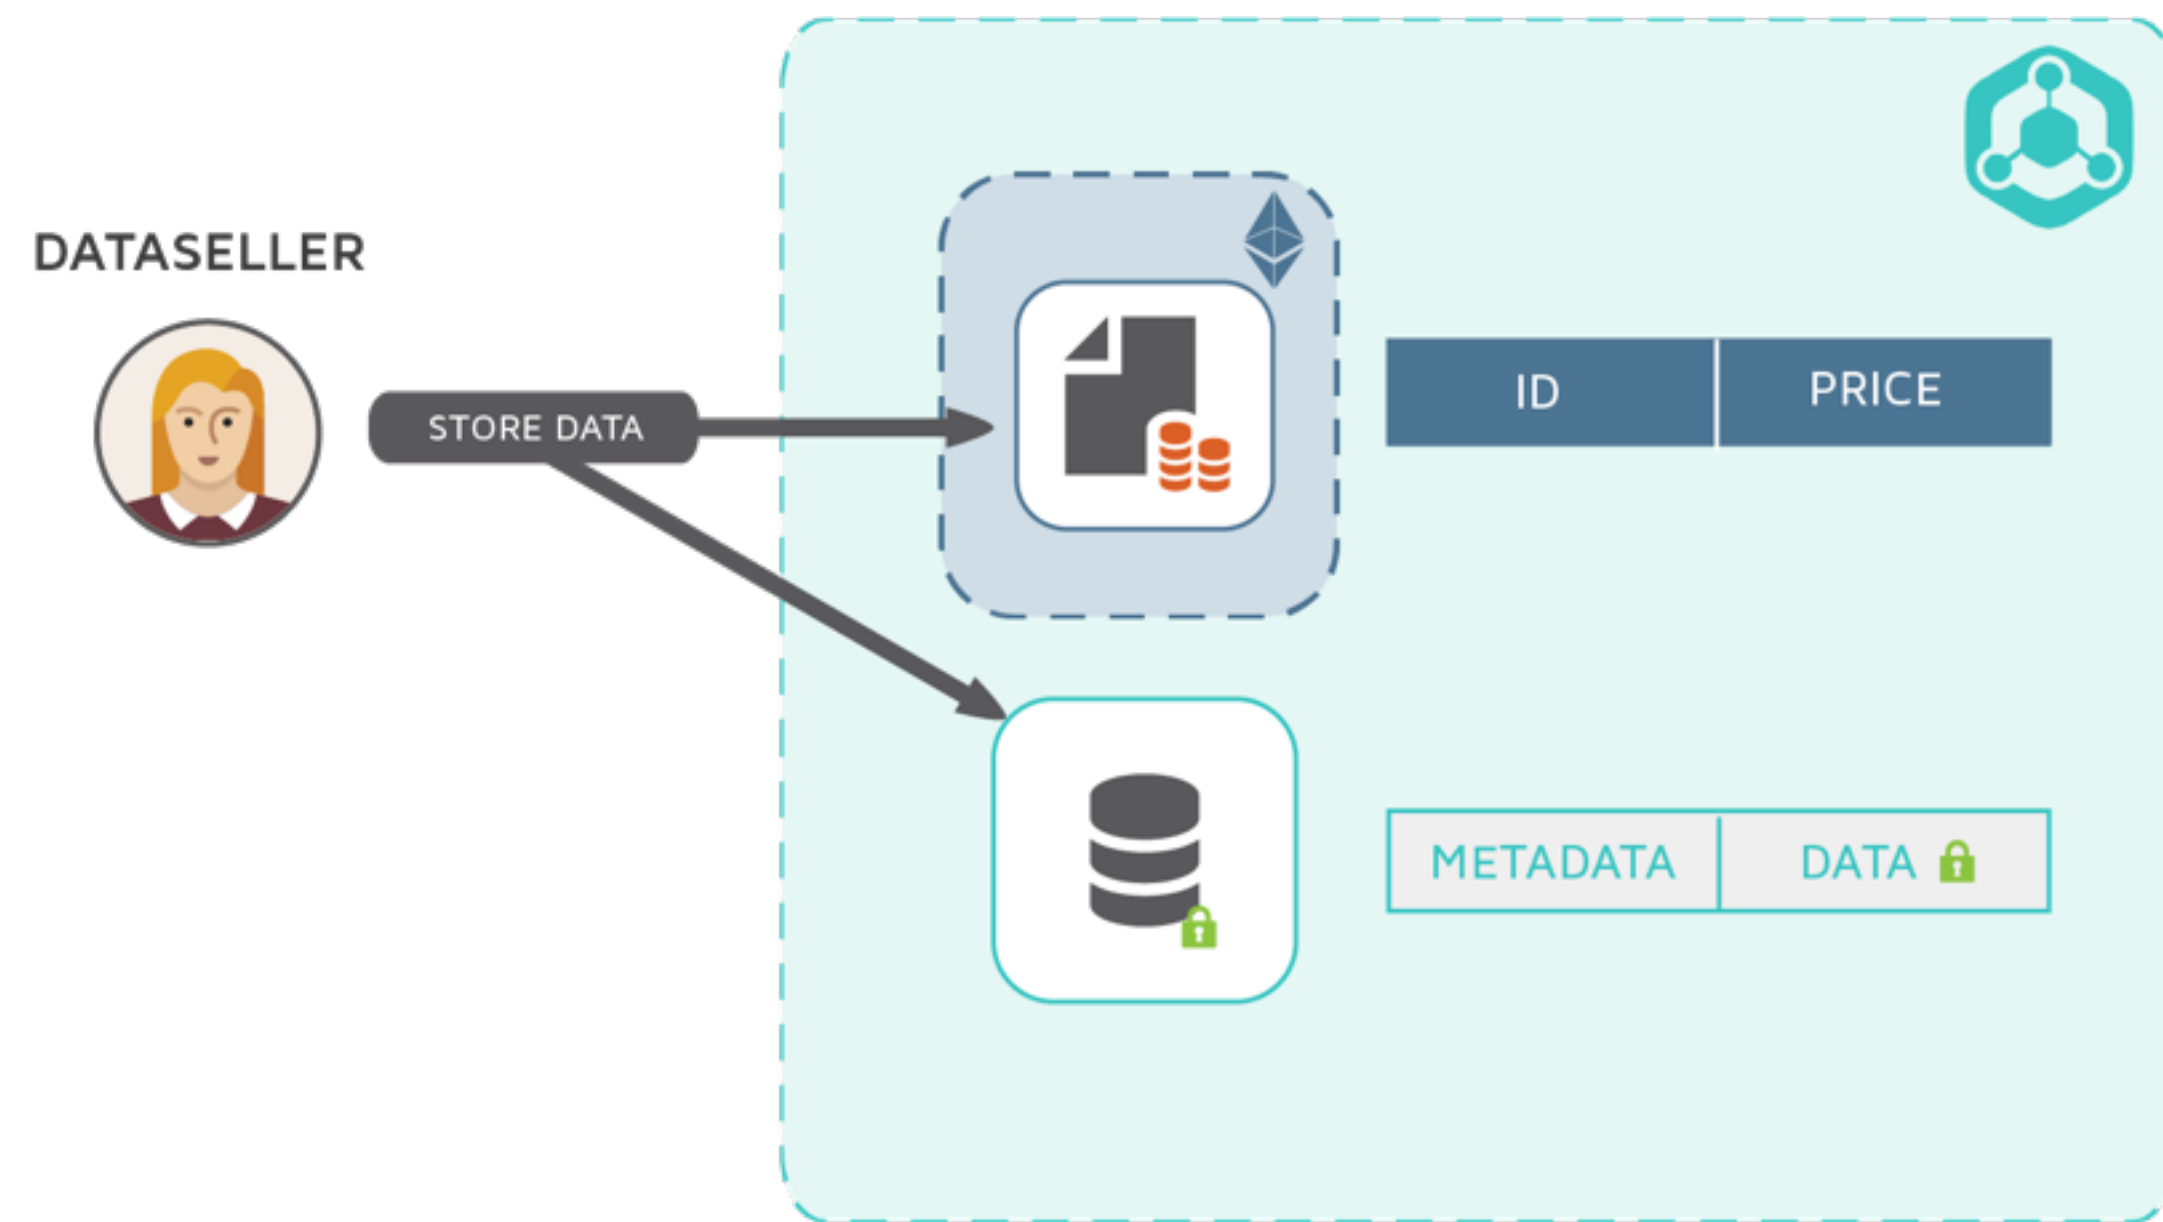

Distributed
Data
Markets

To
Store

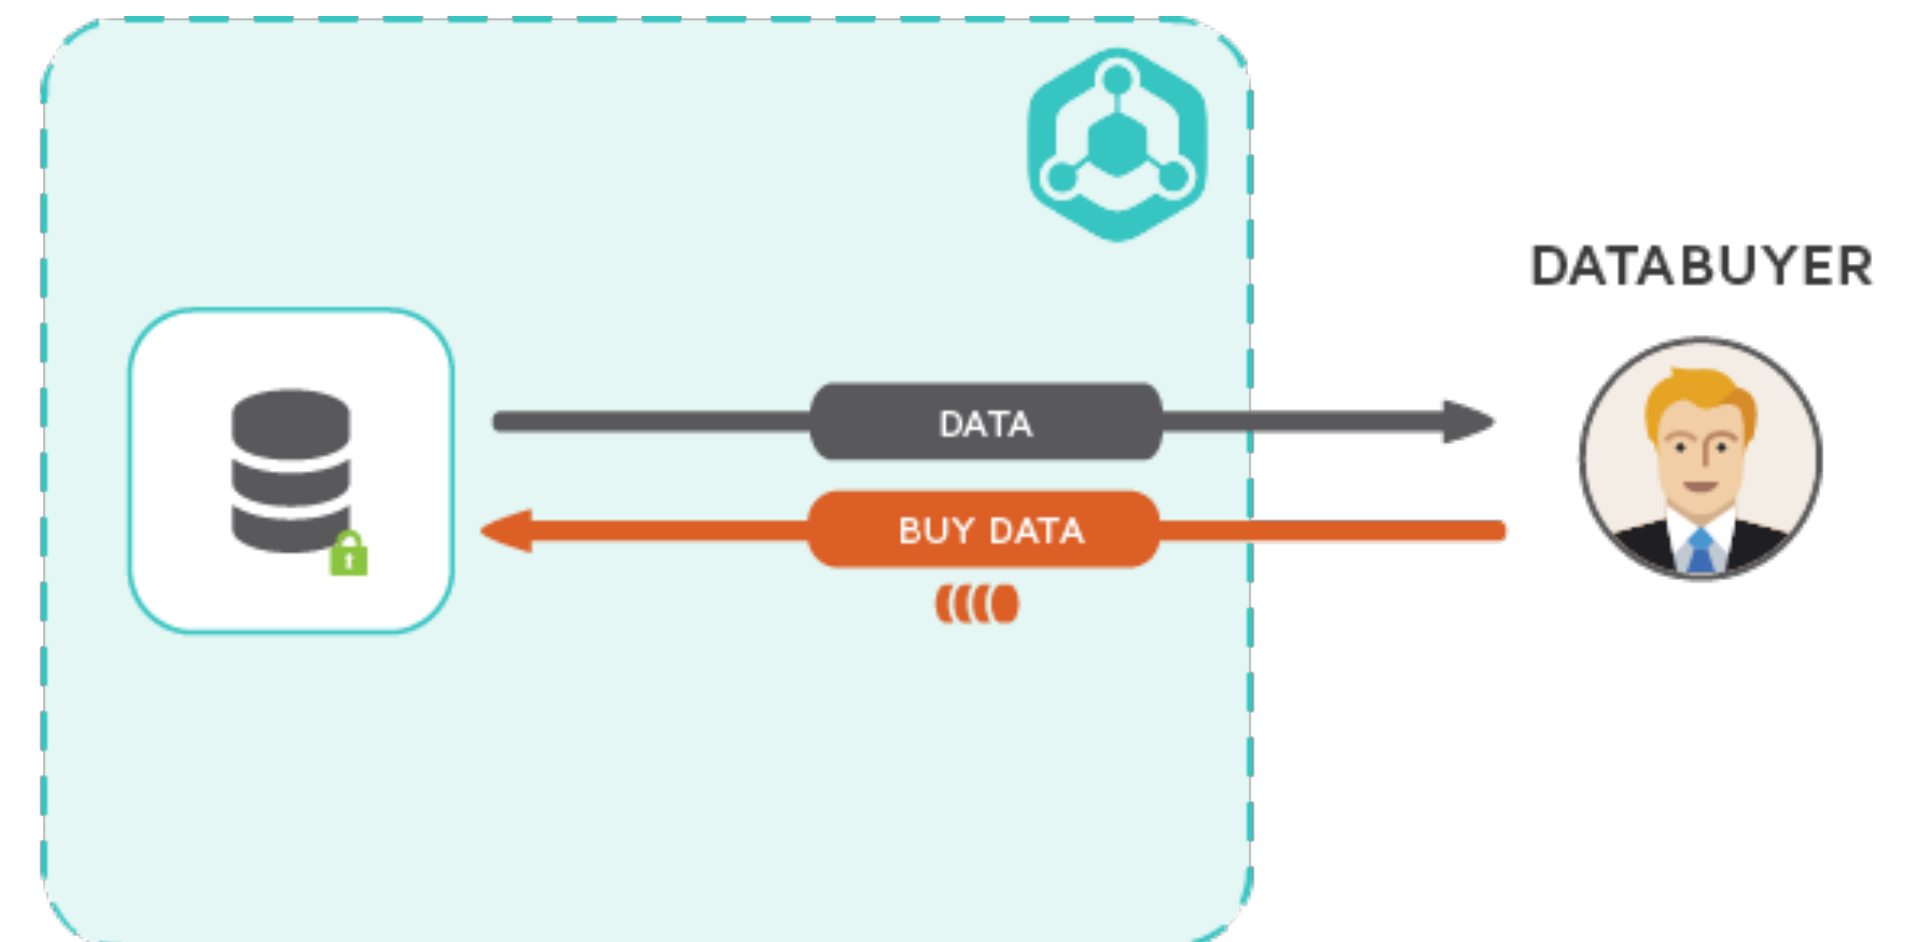

And
Valorize

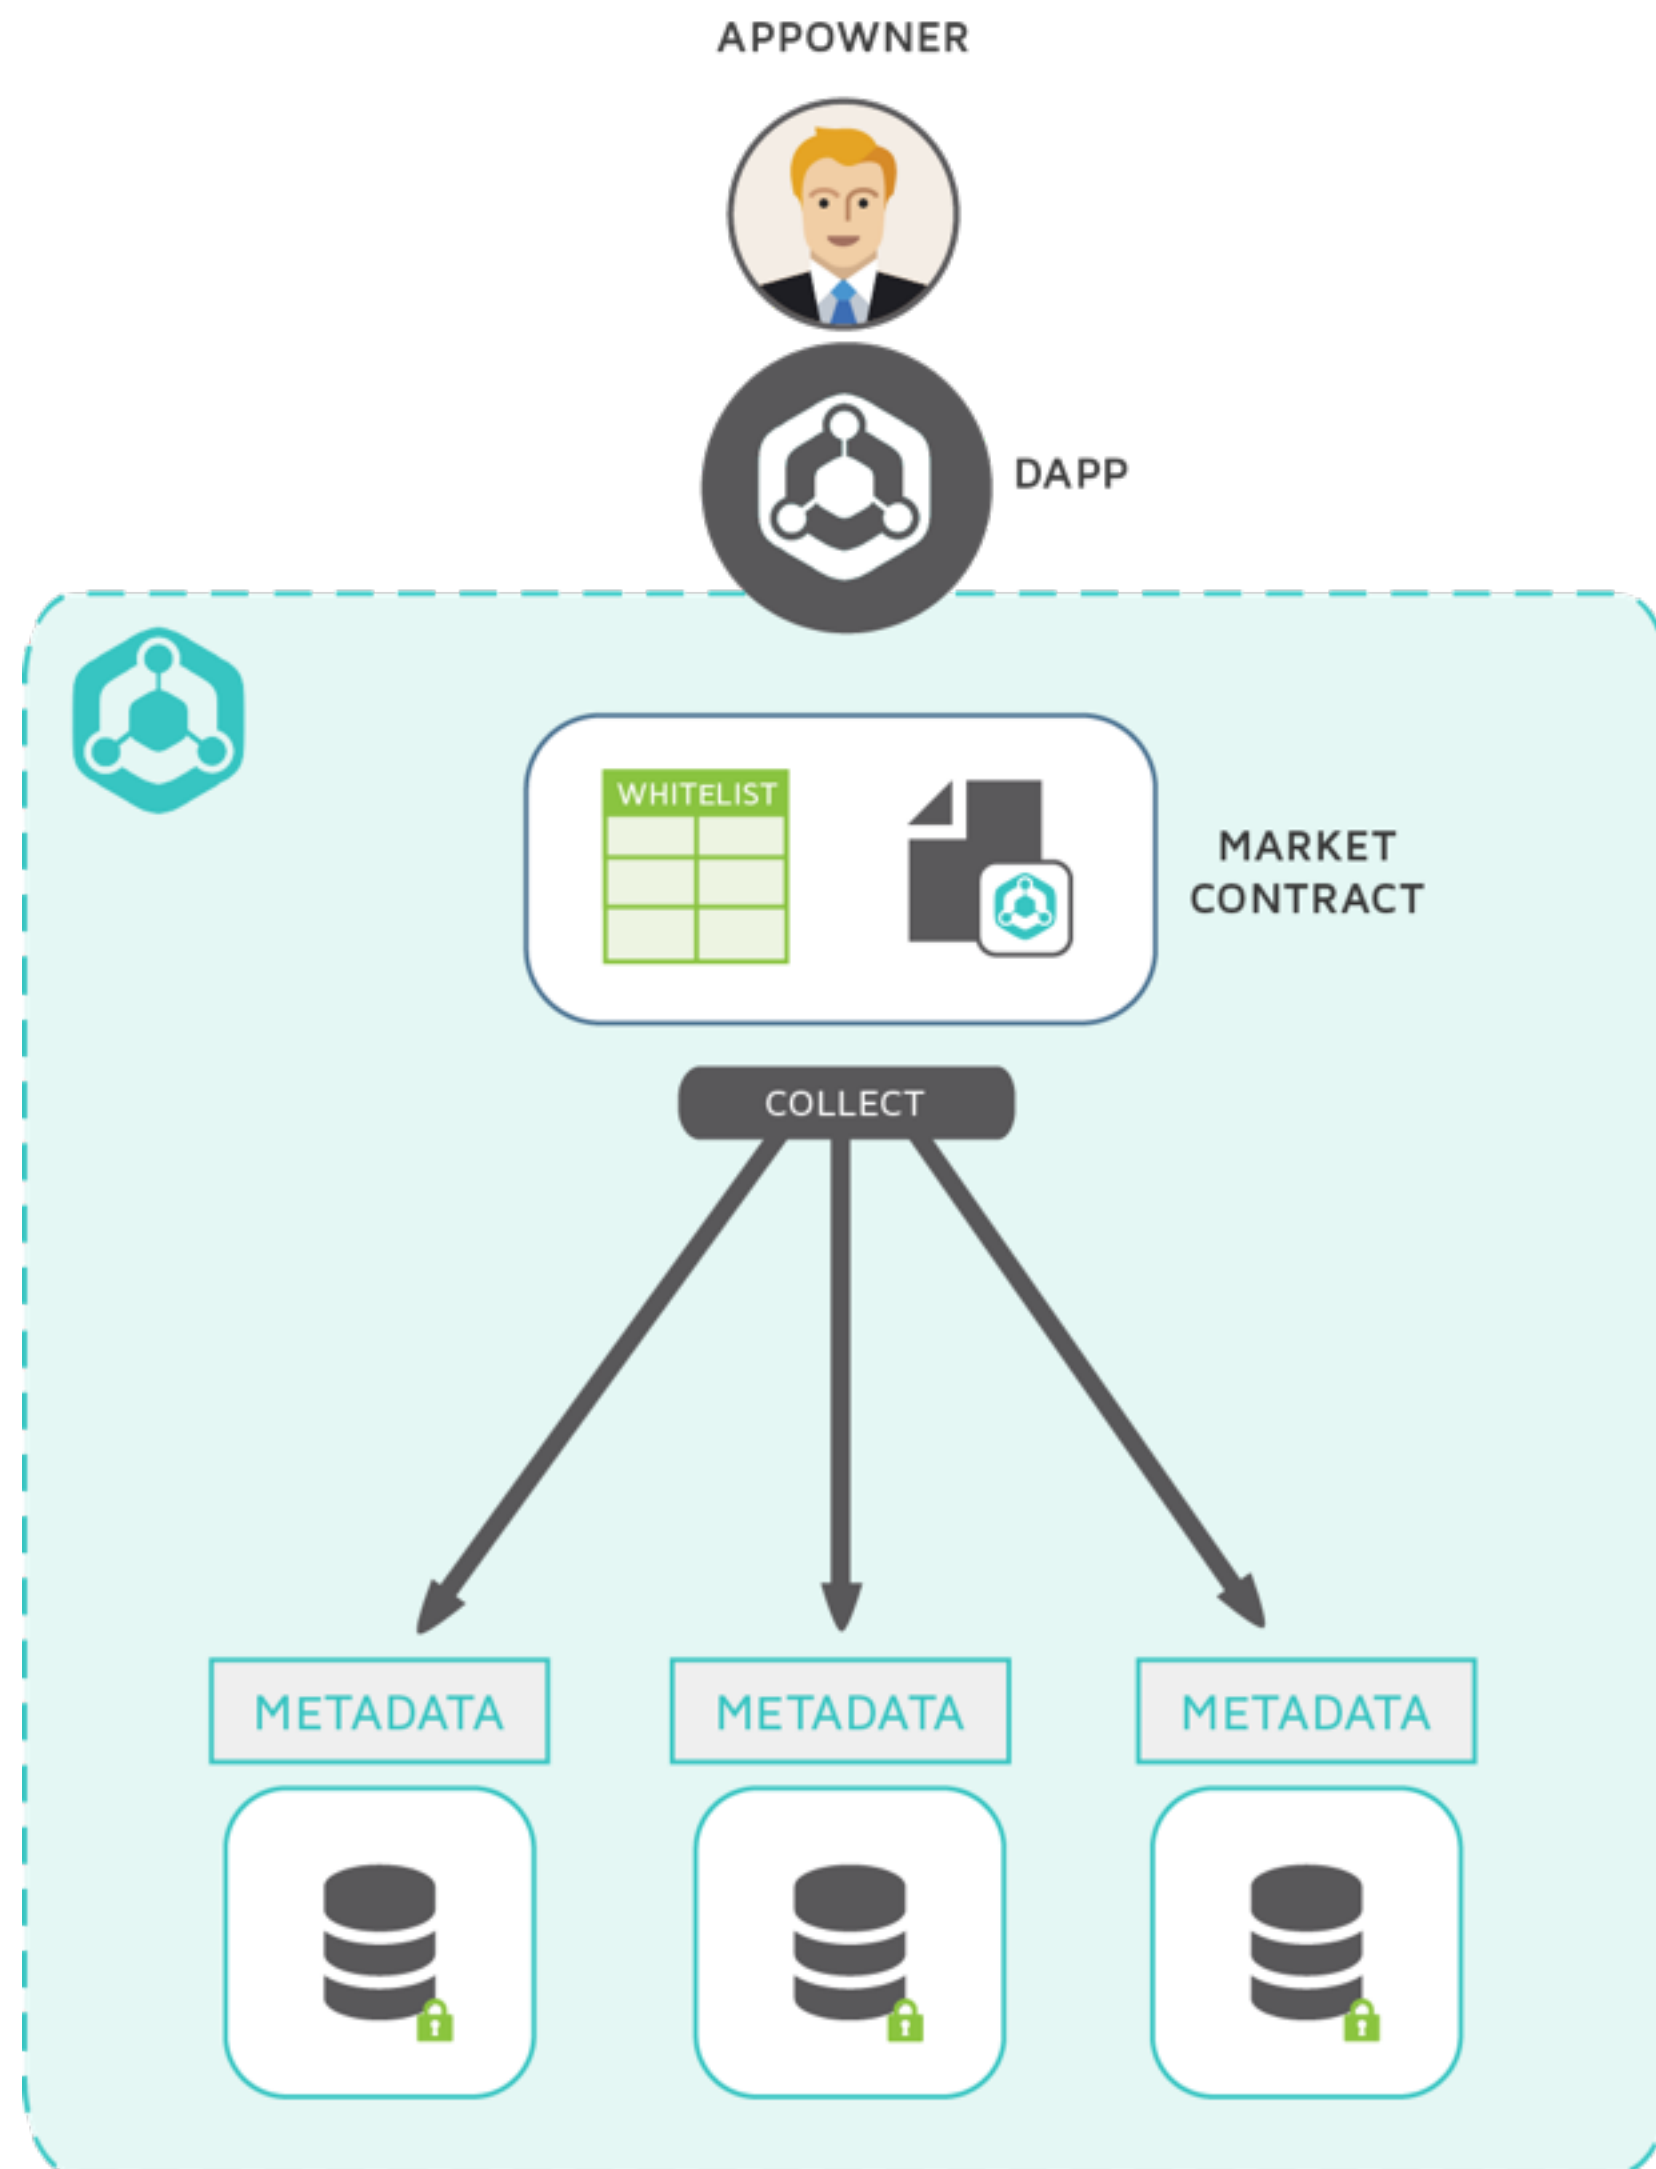

in a
Decentralized ecosystem

Store & valorize Data

Buying Data

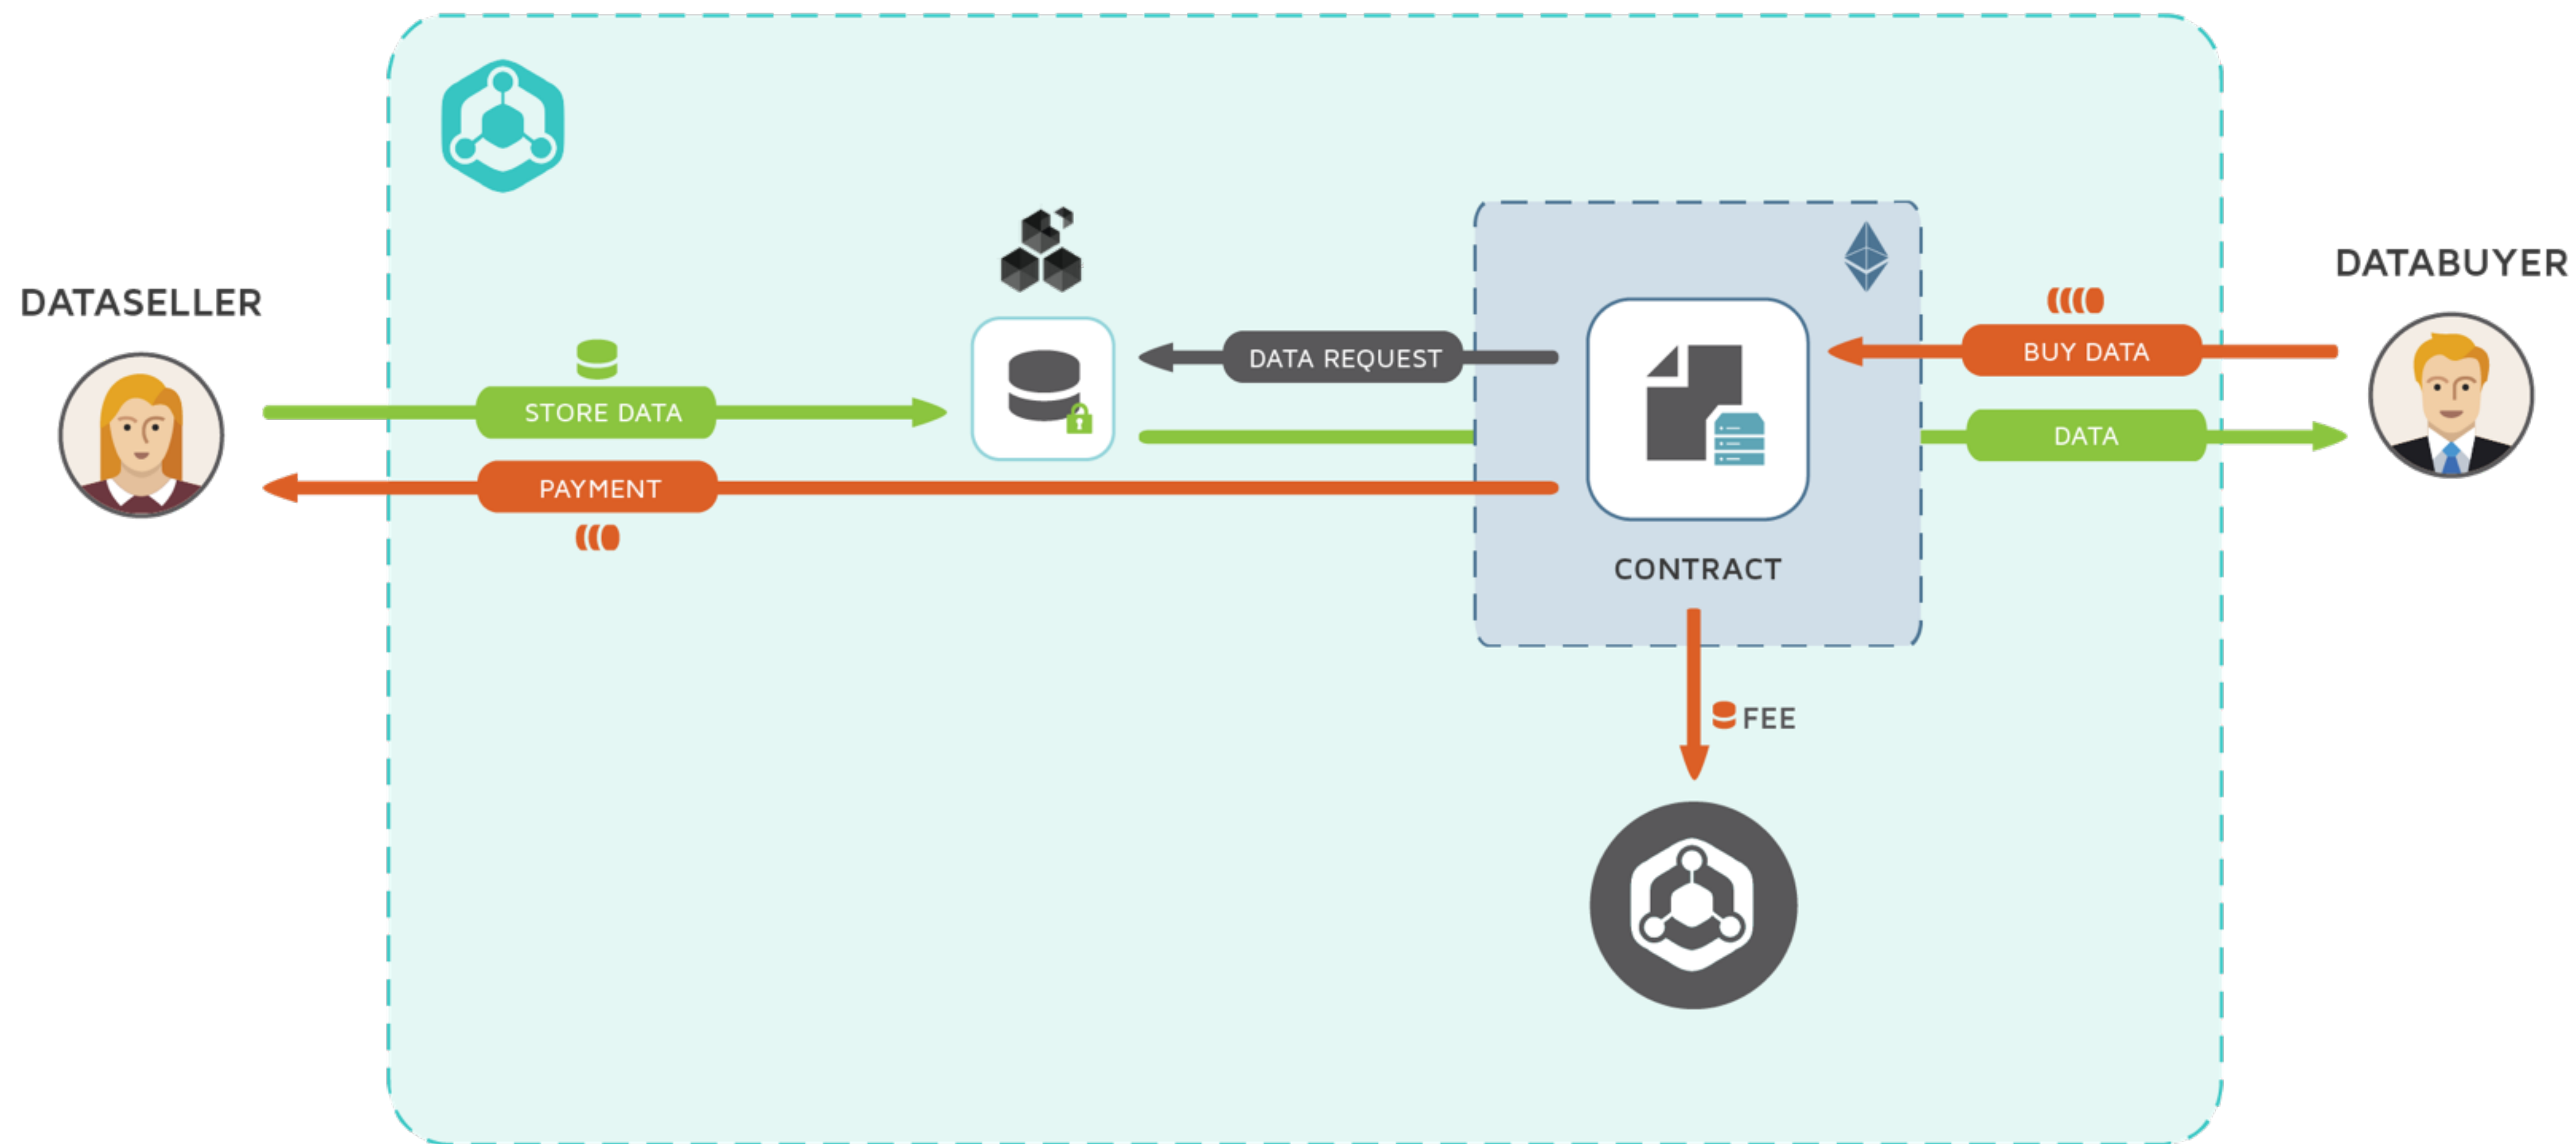

Everyone can create a **Market**

By collecting Metadata

For a specific use case

DISTRIBUTED DATA MARKETS
MORE TO EXPLORE

Managing the quality of data with a [reputation](#) system

Manage the quality of the dapps and the reputation system with a [distributed organisation](#)

Make DDaM [agnostic](#) with decentralised data storage systems

Manage Personal Data Regulation
